If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. ## DETAILED ACTION

### ***Allowable Subject Matter***

Claims 1, 4-9 and 11-15 are allowed.

The following is an examiner's statement of reasons for allowance:

The instant application is allowable over the prior art because the instant application teaches an electrochemical sensing device comprising *two different redox systems that are sensitive to the same species*. The device also comprises a means to apply a varying potential and a means to detect peaks in a current flowing between the working and counter electrodes.

The closest prior art of record, Casimari et al. (Biosensors & Bioelectronics, 1995, Vol. 11, No. 8, pages 783-789) teach an electrochemical sensor comprising at least two redox active molecules (LOD and LDH) which are both covalently bonded to a polymer film and placed in contact with an electrode; however, the redox molecules are not sensitive to the same species. Casimari et al. utilizes the LOD enzyme to catalyze the oxidation of L-lactate to pyruvate and the second enzyme, LDH, to amplify the response by recycling the pyruvate back to L-lactate. Therefore, the redox species do not undergo a redox reaction with the same species.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1759

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
